# Sustainable Substrate List

**PCW/RF:** The material is made from a specified percentage of post consumer waste and/or recycled fibre.

**Recyclable:** The substrate can be recycled through various recycling streams. Please consult your local municipality as recycling policies/recommendations may vary depending on your location. This will ensure it is being disposed of in the correct stream.

**Recyclable-yes\*:** The material requires an imprinted recycling symbol.

**Recyclable-yes\*\*:** The material can only be recycled if returned to Hemlock Display.

Many of the substrates listed above come in a wide range of thicknesses, colours and textures. Please consult with your Account Representative for more details on specific substrates.
